

SILVERBACK

α ALPHA + OMEGA Ω

FRONT • REAR

**WE'VE GOT
YOU COVERED
FROM BEGINNING TO END**

THE α ALPHA FRONT BUMPER

THE NEW FACE OF TOUGHNESS

A replaceable chrome-plated stainless skin over a permanent, patent-pending mounting system—built to reduce replacement cost and truck downtime.

FRONT BUMPER

THE **α** ALPHA FRONT BUMPER

YOUR FUPS. OUR MOUNT

WE DON'T REPLACE YOUR FUPS DEVICE. WE MOUNT TO IT

DON'T PAY FOR FUPS TWICE.

Conventional bumpers build their own underrun device into every bar — so you buy a certified structure the truck already has, bolted over the top of the one it came with.

NO CUTS. NO MODS. FULLY COMPLIANT

We don't drill, cut or alter the factory FUPS device — we mount to it. As the certified structure is untouched, its compliance stays intact. No engineering sign-off on a modified underrun guard, because nothing has been modified.

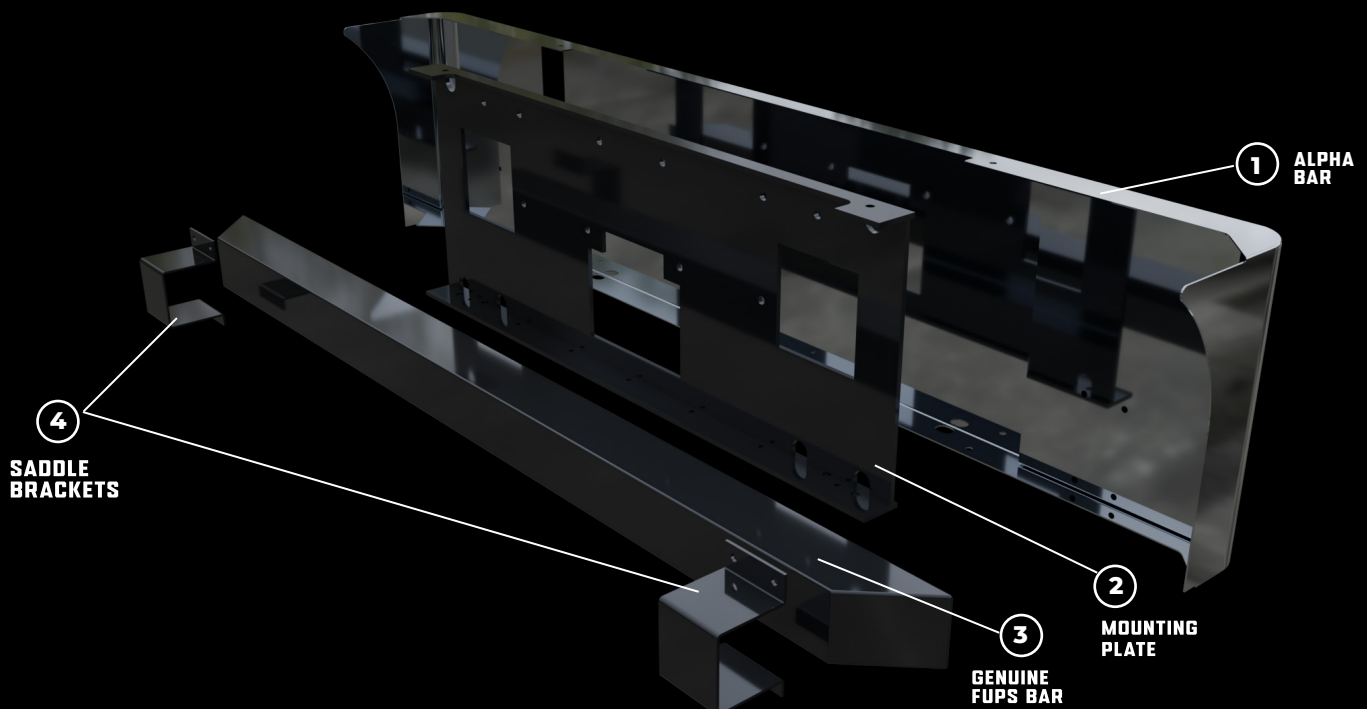

ONE BAR. A FITTING KIT PER TRUCK

The skin and the fitting kit are separate orders. The kit makes it model-specific — so a new application means a new kit, not a new bar.

■ PATENT PENDING

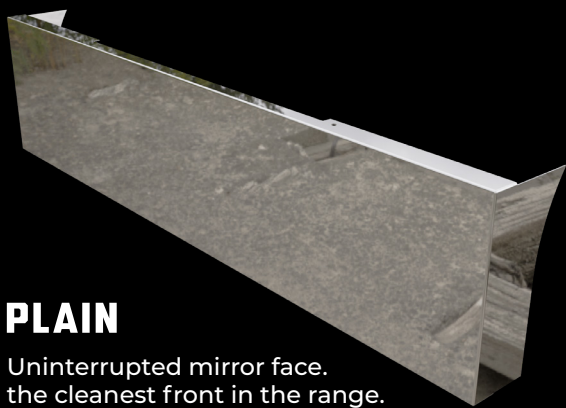

FOUR PARTS. ONE IDEA

THE WHOLE DESIGN IN ONE VIEW. THREE OF THESE FOUR PARTS STAY ON THE TRUCK FOR ITS LIFE — ONLY THE CHROME SKIN IS EVER REPLACED.

THE α ALPHA SERIES IN **BOX PROFILE**

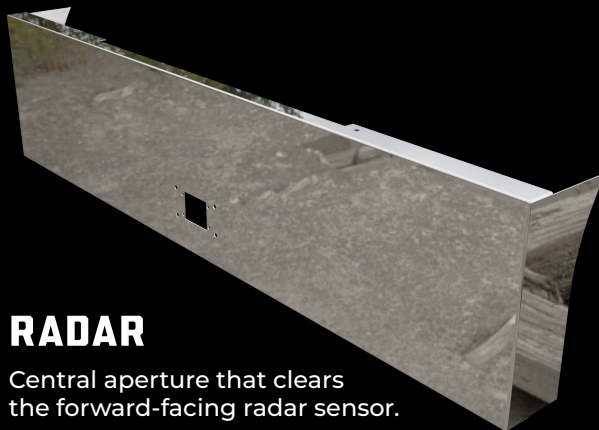

Every Alpha is the same premium mirror-chrome bar.
Only the cut-out pattern on the face changes

PLAIN

Uninterrupted mirror face.
the cleanest front in the range.

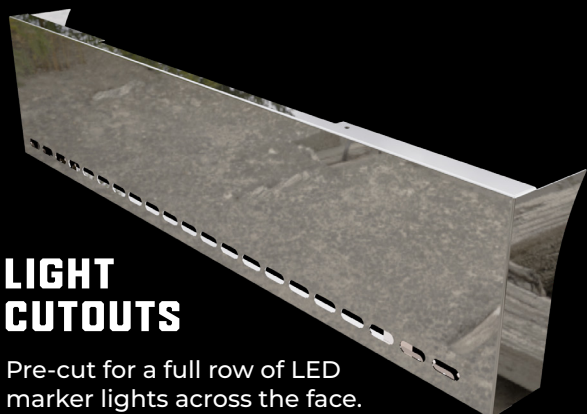

ORDER CODE
BMP-ABB9622-PL

RADAR

Central aperture that clears
the forward-facing radar sensor.

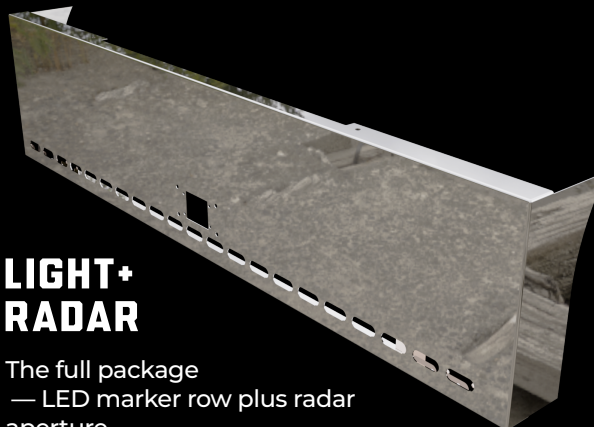

ORDER CODE
BMP-ABB9622-R

LIGHT CUTOUTS

Pre-cut for a full row of LED
marker lights across the face.

ORDER CODE
BMP-ABB9622-L

LIGHT+ RADAR

The full package
— LED marker row plus radar
aperture.

ACTUAL INSTALLATION | 5-0-5 STYLE

No cutting, no splicing, no auto-electrician. Like the Alpha, the Omega connects to what's already on the truck — it doesn't replace it.

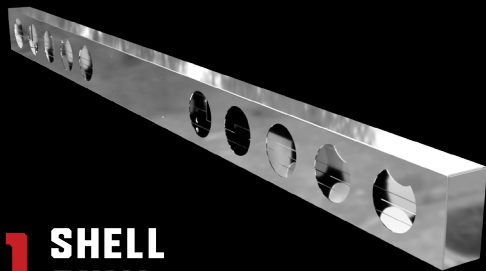

5X LIGHTS | NUMBER PLATE | 5X LIGHTS. Nickel chrome over a stainless shell, engineered light apertures, bolt-together back-plate assembly

THE **Ω**MEGA SERIES

UNDERSTANDING THE 5-0-5 OPTIONS

THE 5-0-5 STYLE TWO WAYS TO CHOOSE

1 SHELL ONLY

The bare stainless chrome shell, for fitters running their own lights and loom.

ORDER CODE
TLB-OM505-SHL

2 COMPLETE PLUG & PLAY

Shell, lights, chrome surrounds and a harness terminating in the Kenworth Deutsch plug.

ORDER CODE
TLB-OM505-KW

FITTING KITS PANEL

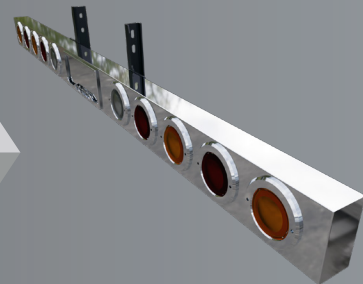

Sold as a pair with the bolts included. Two versions, depending on the chassis — the bar itself is the same either way.

STANDARD CHASSIS

Pair of chassis brackets plus bolts. Suits Kenworth chassis with no rear-mounted equipment.

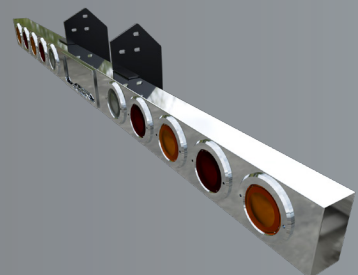

ORDER CODE
TLB-FITKIT-KW

AUXILIARY UNIT

Pair of chassis brackets plus bolts, for chassis with a rear-mounted auxiliary unit — generator, APU or sleeper-cab air conditioning.

ORDER CODE
TLB-FITKIT-KWAUX

ALPHA

BE SEEN COMING...

Alpha is the first letter—and the front of the truck. The Silverback Alpha front bumper gives the leading edge a mirror-finish stainless chrome face backed by a purpose engineered mounting system.

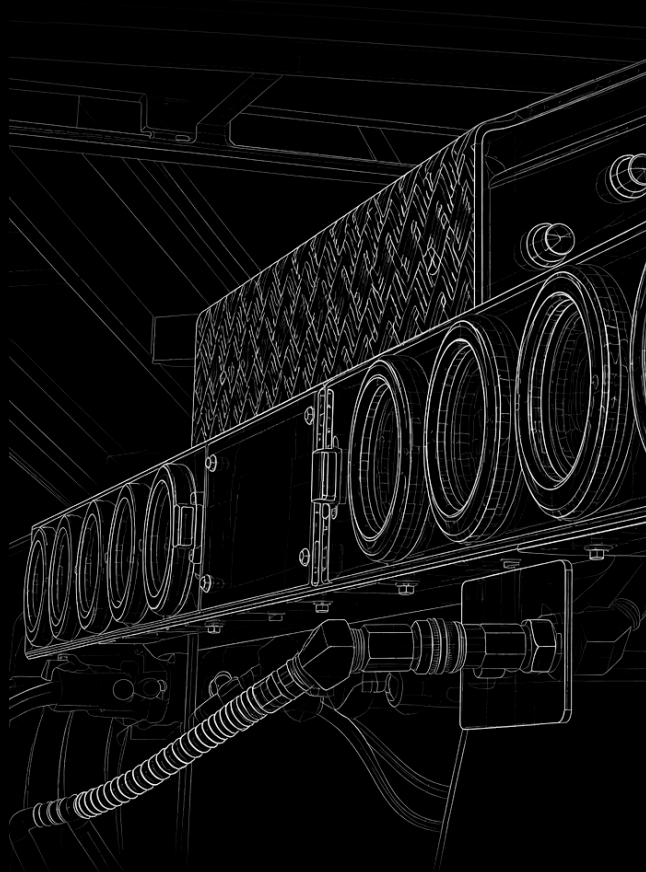

BOLD

HEAD-TURNING
MIRROR CHROME

OMEGA

LEAVE A LASTING IMPRESSION

Omega is the last letter—and the rear of the truck. The Silverback Omega tail light bar finishes the story with unmistakable stainless chrome presence and configurable lighting layouts.
